It is my intention to send my personal letter of OBJECTION to all these persons with the express intention of highlighting our concerns over the application proposal.

This is easy to do..... if everybody does this, we will have a significant impact.

I also intend to send the proposed “editorial” to as many press outlets as possible with the hope that they will want to get involved with this story.

AND lastly the new leader of the HULL CITY COUNCIL;

This will affect the transport system and the environment in the East Hull area therefore it should not be ignored.
